August 2019

Introducing the wedi Vapor 85 Building Panel

A special variant of the wedi Building Panel, Vapor 85 is designed for the specific installation in steam showers and steam rooms. It will serve as a strong vapor retarder, by far exceeding the minimum requirements set by the Tile Council of North America (TCNA) for vapor retarders used in continuous use steam rooms. At the same time it offers all the benefits of the traditional and time tested wedi Building Panel: it's light yet strong. It is cut and worked with in a most clean and exact way. It adds insulation, and great adhesion to tile and other suitable surface finishes. But the best feature is it is a component of a fully functioning system which was developed to also vapor-proof seams, and fastener penetrations. The Vapor 85 makes best use of wedi system technology taken from wedi Building Panel, wedi Subliner Dry, wedi Subliner Dry Sealing Tape, and wedi Joint Sealant. And of course, it works great with wedi Fundo or Subliner Dry on steam room floors.

NEW PRODUCT

CROSSVILLE Introduces Porcelain Countertops

Crossville recently introduced their versatile porcelain countertops line. These unique, stone-look products are now available to ship to the stone fabricator of your choice.

This collection is a great addition to the current Crossville product offerings. They were designed to coordinate with Crossville's most popular porcelain ranges, giving customers even more autonomy to design and create exquisite projects all in one place... no need to shop around.

Offered in both polished and unpolished porcelain, these 64" x 127.5" countertops are stain-resistant, easy to maintain, and will not crack or yellow. Installed either vertically or horizontally in commercial or residential settings, they are suited for exterior installations as well.

Crossville countertops expertly replicate ten of the most popular natural stones used in today's market. Customers can now get the technical performance of porcelain with all the beauty of Mother Nature... in coordinating tiles and counters.

These 12mm thick countertops are available in mitered or flat polished edges allowing fabricators to build them up to achieve a variety of edge-options.

Call (716) 662-4441 or stop by our showroom today for more information on this exciting new product from Crossville, or visit their website [here](#).

DISCONTINUED PRODUCT

CROSSVILLE to discontinue Reclamation

Effective November 1, 2019, Crossville has announced that they will discontinue their Reclamation line in all sizes and colors.

If you are currently working a project that includes this product, please contact our office at 716-662-4441 or stop into the showroom to check availability or make alternative selections. Thank you.

THE QUALITY COLLECTION OF CERAMIC TILE

Now Available at Tiles International

Tiles International now carries products from XL North - a specialty Floor Care & Surface Prep company that provides innovative, proven, effective and environmentally responsible floor cleaning, maintenance, and surface prep products.

One of these innovative products now available through BWG/Tiles International is Clean-Up. Clean-Up Rinse Water Disposal will solidify slurry you can't dump down the drain- or in a driveway or parking lot, and certainly not in Mrs. Smith's Rose Garden- and solidifies it so you can safely and legally take it out with the rest of the trash.

Find more information on Clean-Up, visit the XL North website [here](#).

Words of Wisdom

"Life is like riding a bicycle. To keep your balance, you must keep moving."

~ Albert Einstein
