

MINDFUL MATERIALS & FLORIDA TILE

Reinforcing their commitment to transparency and sustainability, Florida Tile, Inc. is a proud participant in the mindful MATERIALS Library.

mindful MATERIALS (mM) is a free platform with aggregated information on human health and environmental impacts for products from leading manufacturers. It is vetted by experts passionate about making it easier to make informed product choices. For products to be incorporated in this program, manufacturers must provide individual product details as well as certifications and/or attributions. This allows building industry professionals to easily locate relevant transparency and sustainability attributes in categories such as: material ingredients, environmental profile, VOCs, material sourcing, social responsibility, etc.

A key component of this program is the Transparency Label, used on product binders in resource libraries. The label, designed as a tangible means to incorporate transparency information into designers' everyday work process, has received an enthusiastic response from the industry. It provides at-a-glance information about the product, offering a quick reference for those who need it. Florida Tile sales representatives can distribute and place these labels for participating firms during scheduled appointments.

DISCONTINUED PRODUCTS

Try it! You'll love it!

Words of Wisdom

"If you really want to do something, you'll find a way. If you don't, you'll find an excuse."

~ Jim Rohn, American Entrepreneur
