PLEASE NOTE:

Happy New Year!

Wow, we cannot believe it's January already.
2023 really flew by and, yes, we are having fun.
Thanks to our customers for a great year.

2024 promises to be an exciting year with new products, new technologies and yes, new pricing. We are glad you are along for the ride. We sincerely hope you have a healthy and happy new year and prosperous year in 2024.

"I hope that in this year to come, you make mistakes. Because if you are making mistakes, then you are making new things, trying new things, learning, living, pushing yourself, changing yourself, changing your world. You're doing things you've never done before, and more importantly, you're doing something."

~ Neil Gaiman, British Author

MARAZZI 

PRODUCT FEATURE: The Psychology of Blue Tile from Marazzi

Colors can have impactful effects on mood and emotions. The color blue brings feelings of calmness and relaxation, often described as peaceful, tranquil, and secure. Incorporating this versatile color into your designs can make a space truly unique and appealing.

Combine different shades of blue tile in various textures and patterns with neutral tones to create a timeless look. This allows the blue hue to remain the focal point. Looking to create drama instead? Incorporate warm elements like wood and metal to elevate your blue tiles to create a captivating space.
